DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims **30-55** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant's preamble recites a device for testing components of a medical device but the body of the claim fails to recite any structure that tests the device. Applicant's claims merely have stations in which the device can be connected and have currents passed through but have no elements for evaluating whether the device is operational or not.
